Dr. Marek Jukl

Dear Dr. Marek,

Dear friend

The Syrian Arab Red Crescent extends its best wishes. We would like to take the chance to thank the Czech Red Cross and the government for the constant support that we have been receiving during the Crisis and the ongoing cooperation between us.

It is with great appreciation that I thank you on behalf of the Syrian families and people during these times of hardship. This kind contribution that has been so kindly made to aid the most vulnerable people in need in the name of SARC is much appreciated and we are grateful for such a donation as we as SARC have been doing our utmost to support the most vulnerable people in need especially in hot areas throughout Syria where this aid will be distributed to Zabadany, Madaya, Foa, Kefraya, Saydeh Zenab, and Tartous (Baniyas Camp) and we deliver aid whether in the health, WASH, or psychosocial support and many other fields and this kind of contribution will add to our work and assist those who are in need of humanitarian aid.

The Czech Red Cross has always been known for its generous contributions and its support throughout the past years. We take this chance to thank you again and we highly appreciate your response to the situation.

With my best personal regards,

Dr. Abdul Rahman Attar
SARC- President
IFRC- Governing Board Member
